## Northern Mariana Islands

The Northern Mariana Islands, officially the Commonwealth of the Northern Mariana Islands (CNMI), [b] [11] is an unincorporated territory and commonwealth of the United States consisting of 14 islands in the northwestern Pacific Ocean. [12] The CNMI includes the 14 northernmost islands in the Mariana Archipelago; the southernmost island, Guam is a U.S. territory.

## Energy Snapshot

This profile provides a snapshot of the energy landscape of the Commonwealth of the Northern Mariana Islands (CNMI), a commonwealth in political union with the United States that is located in the northern Pacific Ocean.

## Committing to a Future of Renewable Energy

The Commonwealth of Northern Mariana Islands (CNMI) has taken a historic step toward moving toward a cleaner, greener future. Governor Arnold Palacios earlier this week signed the Blue Planet Climate Agreement, a document declaring the CNMI's intention to commit itself on the path to a 100% renewable-energy future.

## U.S. Energy Information Administration

A large 20-megawatt solar photovoltaic (PV) facility on Saipan is in development and scheduled to come online in 2025. CNMI's electric utility generates electricity at five diesel-fueled power plants (three on Saipan and one each on Tinian and Rota) and the territory's entire population has access to electricity.

## Northern Mariana Islands Territory Energy Profile (2013)

The Commonwealth Utilities Corp., CNMI's public utility, is focusing on waste gasification, geothermal, solar, and wind technologies to reduce the need for petroleum-fired electricity generation. Nearby volcanoes make CNMI - particularly the islands of Pagan and Saipan - unique in Micronesia in having abundant geothermal energy potential

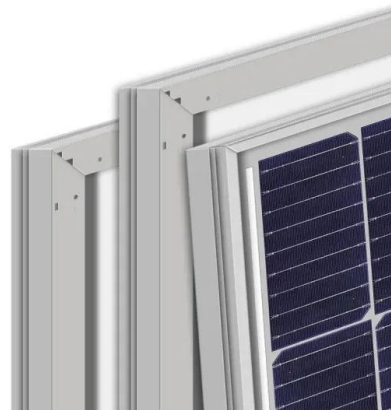

## Committing to a Future of Renewable Energy
