### European Commission approves support for 'at least 5.4GWh' of

The European Commission (EC) has approved a EUR1.2 billion (US\$1.32 billion) state aid package for Poland to support the deployment of electricity storage facilities. The EC, the administrative and legislative governing body of the European Union (EU), announced the scheme's approval yesterday (3 October).

### Poland looks set to be an energy storage leader

Poland, Europe's tenth-largest economy, is set to become a hotbed of energy storage project development as the share of renewable energy on its grid soars. The country ...

### PGE: we will build largest energy storage facility in Europe in Poland

PGE: we will build largest energy storage facility in Europe in Poland Source: Pexels PGE Group is set to construct Europe's largest energy storage facility, with a capacity of up to 263 MW and a minimum of 900 MWh, near the Zarnowiec Pumped-Storage Power Plant.

### EU okays Polish EUR 1.2bn state-aided energy-storage project

The move, approved on October 3, 2024, will aid Poland's shift away from fossil fuels and enhance

its ability to integrate renewable energy into the national grid. The scheme will add at least 5.4 GWh of new capacity to Poland's electricity grid as the country adapts to the fluctuating outputs associated with renewable sources such as wind
