Largest cold storage facility breaks ground , Phnom Penh Post

The largest temperature-controlled cold storage and cross-docking facility in Cambodia - which will be able to handle up to 25 per cent of the Kingdom's total requirements - has broken ground in Kandal province.

, Phnom Penh Post

These include the popular smart PV inverter, intelligent power storage products and accessories for residential, commercial and industrial solar rooftops. The cooperation will add significantly to Cambodia's fast-growing renewable capacity and will further contribute to green energy development and industrial clean electricity demand, as well

Solar-Powered Cold Storage Room for Preserving Agri Products ...

Thmei Agricultural Cooperative (KATAC) came up with the idea to build a cold storage room powered by solar energy to serve as temporary storage for crops before transporting the products to the markets, thus, reducing the risk of loss.
