Vision , Suena Gmbh

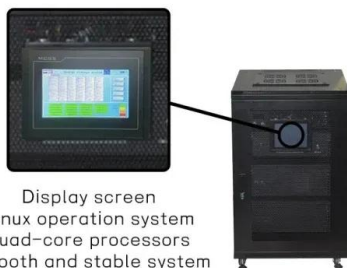

Since energy generation from fossil sources is responsible for the emission of a large share of environmentally harmful greenhouse gases, a change to an energy system running on renewable energy sources is essential. We need the ...

ENERGY PROFILE Chad

developing areas. Energy self-sufficiency has been defined as total primary energy production divided by total primary energy supply. Energy trade includes all commodities in Chapter 27 of the Harmonised System (HS). Capacity utilisation

is calculated as annual generation divided by year-end capacity x 8,760h/year. Avoided

Display screen
Linux operation system
quad-core processors
smooth and stable system

suena (suena GmbH)

suena, born out of a vision to be catalyst for the energy transition, is a Hamburg based green-tech start-up founded in 2021. As a route-to-market provider, suena offers advanced optimization and energy trading services for large-scale energy storages.

Since energy generation from fossil sources is responsible for the emission of a large share of environmentally harmful greenhouse gases, a change to an energy system running on renewable energy sources is essential. We need the energy transition to happen as ...

suena

Suena, short for sustainable energy applications, is a Hamburg based 100% digital flexibility trader for large-scale battery storage. With the suena Autopilot, suena offers optimisation and trading services to maximise efficiency and ...

suena GmbH

suena, born out of a vision to be catalyst for the energy transition, is a Hamburg based green-tech start-up founded in 2021. As a route-to-market provider, suena offers advanced optimization and energy trading services for large-scale energy storages.

suena

Suena, short for sustainable energy applications, is a Hamburg based 100% digital flexibility trader for large-scale battery storage. With the suena Autopilot, suena offers optimisation and trading services to maximise efficiency and reduce risks of energy storage systems on short-term electricity and balancing markets.

suena sustainable energy applications

We are revolutionizing the way energy storage and renewables are integrated into power trading. The suena autopilot uses cutting-edge forecasting, optimization as well as algorithmic trading techniques to maximize and stabilize profits on electricity and balancing markets.

Suena Energy

Suena Energy focuses on the integration of energy storage and renewables into power trading within the energy sector. The company offers services such as energy trading, analytics, and advice, using advanced forecasting, optimization, and algorithmic trading techniques to manage risks and maximize profits in electricity and balancing markets.
