## Suntransfer solar Senegal

---

### Sun Transfer

Established in 2009, Sun Transfer is an asset-financing company disseminating high-quality solar home systems to rural and peri-urban households in Kenya. In 2020, as the pandemic hit, sales from Sun Transfer's microfinance activities began to drop.

### Senegal: Clean Energy from Solar Systems

The follow-up projects are two solar PV plants in Senegal, which are also connected to the national power grid. The grid-connected PV project in Kaél was commissioned on May 20, 2021 and comprises the construction and operation of a large-scale photovoltaic system with 35 MWDC in Kaél, Mbacké department, Diourbe region, Senegal.

### Centrales photovoltaïques au Sénégal : Une production de

Dans le cadre du programme "Scaling Solar" au Sénégal mené conjointement par les autorités sénégalaises et la Société Financière Internationale (SFI), dont l'objectif est de promouvoir les investissements dans les énergies solaires, deux centrales photovoltaïques dont Kahone Solaire SA (35MW) et Kaél Solaire SA (25MW)

### The Rise Of Solar Power In Senegal: Key Trends And Developments

The energy landscape of Senegal, a nation in West Africa, is undergoing a spectacular transition as solar energy gains prominence. Senegal has achieved great advancements in utilising the year-round abundance of sunlight it receives during the past ten years, and a number of noteworthy trends and breakthroughs are propelling this solar revolution.

### Scaling Solar Kahone, Senegal

With this 44 MWp solar PV plant, Meridiam is reaffirming its ambition to become a key player in the clean energy sector in Senegal and in Africa. The plant produces 77 GWh per year of electricity at a competitive price and reduces the sector's emissions of greenhouse gases, while ensuring that local populations can take advantage of the

### Sun Transfer

Our company stands as a driving force in the fuels, solvents, and technical oils industry. Through our uncompromising commitment to quality, innovation, and sustainability, we empower industries across the globe to thrive. As we forge ahead, we remain resolute in our mission to fuel the future, catalyzing progress, and enabling our customers to reach new heights of success.

### Senegal: Scaling Solar

Nearly 540,000 people in Senegal will get access to clean and affordable power following the launch of two solar photovoltaic (PV) plants, financed by IFC, the European Investment Bank and Proparco, under the World Bank Group's Scaling Solar program.
