Suriname , Climate Technology Centre & Network , 1251249

Suriname is already experiencing the impacts of climate variability and change, manifesting in increased average atmospheric temperatures, diminished annual rainfall, and ...

INDC of Suriname , Climate Technology Centre & Network , Wed, ...

Suriname has taken the initiative to move away from business as usual and to chart a course towards climate compatible development through an enabling framework which has included the preparation and approval of a National Climate Change Policy, Strategy and Action Plan (NCCPSAP).

Remote Villages in Suriname Forest Get 24-Hour

Twelve remote villages in the Suriname forest now have access to uninterrupted power thanks to a new microgrid. When complete, the Suriname Village Microgrid Photovoltaic Project's five microgrids will have a combined ...

Suriname PV Microgrid Provides Power to Remote Villages

Twelve remote villages in the Suriname forest now enjoy continuous power thanks to a new

microgrid initiative. The Suriname Village PV Microgrid Project will consist of five microgrids with a total generation capacity of 5,314 MWh, serving 34 villages once completed.
