## Overview

---

All renewable energy devices are taxed at 12% GST. But, if the project includes erection, procurement, and commissioning of a solar generating system, it will fall under 'Works Contract Services'. Before the Inflation Reduction Act (IRA) was enacted in 2022, BESS could only access federal tax credit funding when powered by solar and required the business-owned storage to be charged with solar 75 percent of the time. The IRA expanded the investment tax credit by eliminating the requirement. When dealing with the sale of solar panels and related products under GST, the tax rate depends on whether or not installation services are provided, and how the invoice is structured. Let's break down the three scenarios you mentioned: Scenario 1: Sale of Solar Panel and Related Products Without. Service Accounting Code are mandatory on invoices for supply of services as per revised requirement from 1st April 2021 for GST taxpayer with turnover of more than Rs. 5 crore. As California continues to be the national leader in green technology, the California Department of Tax and Fee Administration (CDTFA) understands the need to inform businesses of the tax laws that come with this industry growth. In this industry guide, you will find information on the following. Thus, solar structures are taxed at 18% GST. Solar panels: They are made of solar cells and are connected in series.
