Solar Water Heater Cost Calculator

The cost of a solar water heater varies depending on the size, type, and efficiency of the system. The average cost of a solar water heater is between \$2,000 and \$5,000. However, there are many government rebates and incentives available that can reduce the cost of a solar water heater by up to 50%.

ESS

How Much Does a Solar Water Heater Cost? » 2024

The yearly annual operating cost of a solar water heater averages less than \$200 per household! This is significantly less than any other type of water heater, including an electric water heater or gas. This low annual running cost proves solar water heater systems are economically beneficial in the long haul!
