Namene rebrand: A new dawn for our company - Namene Solar

We have now deployed over a million solar lights in southern Africa, proactively seeking feedback from our customers on their needs and preferences, and developing and refining our products and service offerings in response. Adaptability and modularity continue to be cornerstones of Namene's business model.

Lighting up Namibia

London-headquartered firm Namene Solar is working to revolutionise their lives by providing clean energy lights via carbon financing. Yoana Cholteeva speaks with Bernardo Lazo, managing director at Namene Solar, about the project and how it fits into the broader state of Namibian energy.

Solar power in the Netherlands

Nearly 80% of solar power installed in the Netherlands in 2017 was for small systems of less than 10 kW, a large part being rooftop Solar PV. Larger systems over 500 kW accounted for just 6.9% of the total.

Namene Solar

Namene Solar deliver solar power without limit. Namene Solar wants to bring everyone, everywhere access to clean modern energy by connecting people to the sun to power their lives. As full service solar specialists it delivers end- to-end scalable solar systems that save money and combat climate change.

High integrity carbon credits for people and planet

By investing in Namene's carbon projects you'll directly impact families living without energy access by replacing dangerous, toxic kerosene lamps with safe, sustainable solar lights.

Namene Solar

Namene is a business that believes people and planet should come first. We provide affordable, highly reliable, everyday devices to those who need them the most. We harness clean technology to transform lives and livelihoods. Without ever compromising on quality, we make sure our products are always affordable and accessible to all.
