Trion Energy Solutions Company Profile

Trion Energy Solutions is a company developing battery technologies. It offers silicon for lithium-ion batteries, as well as a battery management system that monitors the operational state of batteries.

Trion Energy Solutions

Trion Energy Solutions - Developer of anode materials for lithium-ion batteries. Raised a total funding of \$2.63M over 3 rounds. Founded by Eric Leslie and Steve Waterford in the year 2013. Trion Energy Solutions has 77 competitors.

Trion(TM) Battery Technologies

TRION's SX-Silicon delivers far greater energy and life time than other silicon technologies. It's produced from abundant and inexpensive raw materials, without silane gas, and its production is scalable and highly efficient.

Trion Battery Technologies

The company's material offers a battery system that gives a drop-in service that resolves the expansion and contraction issue, as well as other critical problems, and uses silicon-modified graphite anode materials to improve battery performances, enabling clients to improve energy storage.

Trion Energy Solutions Corp.

Trion Energy Solutions is a manufacturing company that offers silicon-modified graphite anode materials to improve lithium-ion battery performance. It also provides a battery system that gives a drop-in service that resolves the expansion and contraction issues, and other critical problems.

Tricon , Adding a world of value , Tricon Energy

Social And Corporate Responsibility Tricon Cares. We run our business with the clear goal of ensuring complete customer and supplier satisfaction by addressing the needs of the physical commodity industry and adding material value to the overall supply chain.

OUR VISION

Trion is accelerating the transformation of global energy systems by deploying the next-generation of battery technologies, today. As a dependable industry partner, we're dedicated to quality, reliability, and safety. We're meeting the battery demands of today with our leading edge research, development, manufacturing, and delivery.

SITUATION AND MAIN CHALLENGES OF ALBANIA'S ENERGY ...

energy supply of the Albanian economy, concrete projects have recently been supported that also use Albania's geopolitical position in the region, which are related to finding new sources of energy supply, development of photovoltaic

Trion Battery Technologies

TRION Energy Solutions Corp. is a battery technology company. Our mission is to initially deliver a 35% step-change improvement to the performance of Lithium-Ion batteries by resolving the challenges faced by competitors when adding Silicon to Graphite.

Support Customized Product

Albania: The 'Sleeping Renewable Energy Giant' of The Balkans?

Capitalising on renewable energy potential will undoubtedly help Albania enhance its security of energy supply and reduce its carbon footprint, positioning the country on the right path with Europe's long-term aspiration of a climate-neutral continent by 2050.
