Tunisia Contracts Scatec and Aeolus to Build 100MW Solar Projects

It has been estimated that Tunisia has a potential photovoltaic output of 840GW and a concentrated solar output of 1 terawatt. The government set a national strategy to develop solar plants with a combined capacity of 500MW across the country in 2022. It also set a target to have clean energy sources compromise 35% of its electricity mix by 2030.

Tunisia Launches 200 MW Solar Tender

Tunisia's Ministry of Industry, Mines and Energy has launched a tender for the construction of several large-scale PV projects with a combined capacity of 200 MW. The selected independent power producers (IPPs) will sell electricity to Société tunisienne de l'électricité et du gaz (STEG), the Tunisian state-owned grid operator, under
