

# **Uk solar container acquisition battery project**

**1075KWHH ESS**

## Overview

---

TotalEnergies has acquired a UK solar and battery storage project portfolio with a combined capacity of 435MW from renewables developer Low Carbon. The deal includes eight advanced-stage solar projects with a combined capacity of 350MW and two battery storage projects with a capacity. Paris, June 3, 2025 - TotalEnergies announces the acquisition from Low Carbon, a leading renewable energy company, of a pipeline of 8 solar projects with a capacity of 350 MW and 2 battery storage projects with a capacity of 85 MW. As the solar projects are at an advanced stage of development, the. 435 MW Clean Energy Boost: Acquisition includes 350 MW of solar and 85 MW of battery projects, expected to power 100,000 UK homes by 2028. Strategic UK Expansion: Strengthens TotalEnergies' integrated electricity portfolio alongside offshore wind, CCGT, and solar assets. Accelerates UK's Clean. LONDON, June 3, 2025 - TotalEnergies has acquired a pipeline of 350 MW of solar projects and 85 MW of battery projects in the UK from Low Carbon, the company announced on Tuesday. The 8 solar and 2 battery storage projects are located in southern England and are expected to become operational by. Low Carbon has offloaded a substantial slice of its UK clean energy pipeline, selling a 435MW ready-to-build renewable energy portfolio to French energy giant TotalEnergies. This move signals growing momentum in Europe's green energy transition. This newly acquired portfolio comprises eight. The solar and battery projects in the south of England will complement TotalEnergies' integrated UK electricity portfolio. The agreement covers eight solar projects totalling 350MW and two 85MW battery storage projects. Credit: Quality Stock Arts/Shutterstock. TotalEnergies has acquired a UK solar.
