The Meanings of Mana in North Vanuatu: Cosmological dualism

In this paper I explore some of the different contexts in which the term mana (the local variant of the term mana) is employed and understood in the Torres Islands, a small island group in the north of the Vanuatu archipelago, and offer some ideas

Cosmic Chandelier

This explanation describes the planetary systems and all the universal contents to be in the shape of an incredible chandelier. The Temple of the Vedic Planetarium is named as such because within its main dome it will house a 3-dimensional, moving model of the universe according to the Vedic scriptures.

Ni-Vanuatu Nakaemas and Ephesian Cosmology: The

Ni-Vanuatu Nakaemas and Ephesian Cosmology: The

In Vanuatu society, fear of nakaemas has a depth and breadth that profoundly impacts not only the psychology of the population, but also

many political, social, and economic activities. Anthropologists have identified "cosmology" as one of the strongest influences on ni-Vanuatus' conception of evil and power.

Spatial distribution of helium isotopes in volcanic gases and ...

We report He isotopic data for the five most active volcanoes of Vanuatu (Tanna, Ambrym, Ambae, Gaua and Vanua Lava, from south to north) and for three islands ...

Ways of the Place: history, cosmology and material culture in Vanuatu

In postcolonial Melanesia, cultural discourses are increasingly organized around creole words, i.e. keywords of Bislama (Vanuatu) and Tok Pisin (Papua New Guinea). These words make up (or represent) key features of an emerging ethnolinguistic worldview, which is partly born out of the colonial era, and partly out of postcolonial ethno-rhetoric.

Concealment, revelation and cosmological dualism. Visibility

Dans cet article, je propose une analyse ethnographique de l'incertitude et de l'ordre socio-cosmique aux îles Torres, une société du Nord de Vanuatu, où le monde des vivants coexiste ...

(PDF) An Archaeology of Early Christianity in Vanuatu: Kastom and

The archaeology of mission sites from Tanna and Erromango islands, southern Vanuatu (formerly the New Hebrides), offer an informative case study for understanding the material dimensions of
