## Vatican City energy storage summit 2025

---

### Functions

With 220 million devices connected, over 560GW of renewable energy under management, and a community of over 500 customers, we're helping leading businesses get the world to net zero. The green grid of the future will have Energy Storage everywhere.

### Energy Storage Summit 2025 - Energy Storage Ireland

ESI will again be partnering with the Energy Storage Summit and the 2025 edition will be taking place in the Intercontinental London - The O2 from the 17 th to the 19 th February. The Summit will be a major networking event, bringing together over 2,000 stakeholders from across the energy storage value chain.

### Energy Storage Summit 2025

2025 is set to be a pivotal year for the global energy transition, as we reach the halfway point in a significant decade for the planet on its path to net zero. The Summit will highlight the fundamental role that energy storage will play in this journey, and will strive to recognise, explore and analyse key challenges that may present

### Energy Storage Summit 2025

The only UK downstream focused event addressing energy storage. Three streams filled with end users (residential, commercial and utility scale) to address all for the different

market segments. Covering what is the addressable market and how to sell to it as well as how to unlock the much greater potential of energy storage.

### Tickets

Unlike other storage conferences, proceeds from the event help to fund high quality journalism across our media titles. This supports the growth of the solar and storage industries as well as the transition to a cleaner power system
