South Korea awards over 2 GW of wind capacity in oversubscribed ...

2 · The South Korean Ministry of Trade, Industry and Energy has awarded 2,085 MW of offshore wind capacity in South Korea's latest wind auction. 1,886 MW of offshore capacity ...

South Korea

South Korea - First Hydrogen Fuel Cell Plant to Include Data Center in \$1.7 Billion Green Energy Hub. Chungnam Province, South Korea, is spearheading an ambitious \$1.7 billion initiative to construct the nation's first fuel cell hydrogen power plant, paired with a state-of-the-art data center and advanced battery energy storage system.

Babcock wins Vent Gas Cooler technology contract

Babcock LGE, the specialist technology provider for the marine liquefied gas market has secured a new contract for its patented Vent Gas Cooler (VGC(TM)) technology. This follows the recent award for its ground-breaking ecoSMRT® LNG reliquefaction technology for four newly ordered LNG carriers being built in South Korea.

Australia inks deal with South Korea to boost hydrogen supply ...

4 · The Green Economy Partnership Arrangement

(Green EPA) on climate and energy will support Australia and South Korea's shared objectives to diversify clean energy supply ...

South Korea's Power Plans: Ambitious expansion strategy for a

South Korea, a country in East Asia, is known for its technological advancements, vibrant economy and strategic role in global trade and innovation. The country has unveiled an ambitious plan to transform its energy sectors, aiming to generate 70 per cent of its electricity from carbon-free sources by 2038.

Lessons on hydrogen energy's ambition vs reality from South Korea

These challenges with hydrogen energy are not unusual to South Korea, for example: planned hydrogen projects in Germany are on track to have 8.7GW capacity by 2030, only a small increase from an 8.1GW estimate in February, significantly slower than the increase in 2022; a consortium of oil majors and utilities have "shelved" plans to build a 700MW blue ...

SGC energy

SGC Energy, with its District Energy business in CHP (Combined Heat & Power), provides process steam at affordable prices to such sites as Janghang in Chungcheongnam-do and the Gunsan Industrial Complex.
