About

Backed by multiple patent-pending technologies, REON enables the efficient aggregation and application of heterogeneous battery cells. REON's technology can systematically unleash full battery capacities, at the individual and system level, to achieve up to a 2-4X performance increase compared to conventional systems.

Wallis and Futuna

Wallis and Futuna was the only French colony to side with the Vichy regime during World War II until the arrival of Free French and US troops in 1942. In 1959, inhabitants of the islands voted to separate from New Caledonia and become a French overseas territory, a status it assumed in 1961.

Deye inverters and Deye batteries are more compatible.
