Wind Turbines and victron charge controllers

The wind and solar combination will offer a far superior renewable energy solution. I am having to integrate 4 x 5kW turbines with a 135kVA, 320kWh system, and there is no way I will allow the wind controller direct access to my 320kWh Freedom Won battery pack. Wind controller reaction time is just too slow.

Bonaire

St. Eustatius and Saba, islands of the Dutch Caribbean, are boldly pushing their island systems to be solar and wind powered. In St. Eustatius, a solar field is being expanded and at the projects completion in September, solar energy will generate 46% of the island's electricity. Wind energy is under assessment and if added could take [...]
