Bringing Renewable Energy to Pitcairn Island

Solar Power to replace fossil fuel fits well with Pitcairn's blue and green economic objectives. A large number of companies from around the world tendered for the project, all were of a high calibre and after much deliberation the project design contract was awarded to One Energy Island, a South Korean Company who have successfully

Ducie Island, Pitcairn Islands

Specimens of mourning geckos and white-bellied geckos had been determined by the Pitcairn Islands Scientific Expedition in 1991. How to Get to Ducie Island. Ducie Island is part of the Pitcairn Islands and is one of the most far-off islands in the world. To reach Ducie Island, you'll first need to journey to the Pitcairn Islands.

Island Power Solutions , Renewable energy solutions for today

Island Power Solutions develops tailor-made solutions for off-grid systems combining green energy production and storage. At Island Power Solutions we work closely with partners and local communities all to create efficient systems that help islands effectively access all their resources to generate cleaner and reliable energy.

Power Generation Solutions

We supply world-class power solutions with complete life-cycle support for infrastructure applications worldwide. Our mission is to develop power generation solutions that are ever cleaner and ever smarter and thereby respond to the ...

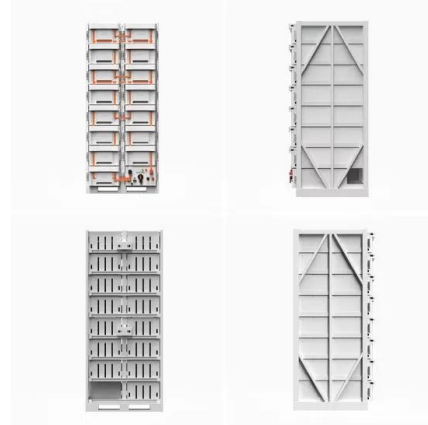

Bringing Renewable Energy to Pitcairn Island

Solar Power to replace fossil fuel fits well with Pitcairn's blue and green economic objectives. A large number of companies from around the world tendered for the project, all were of a high calibre and after much ...

Renewable energy solutions for today

Island Power Solutions was created to provide affordable and clean power to nation islands. We work with renewable energy production, management of waste residues and water treatment solutions, helping islands to reach carbon neutrality. With over 20 years of experience,

Green News: Pitcairn's authorities have launched a renewable ...

Pitcairn's authorities have launched a renewable energy project designed to replace fossil fuels with solar energy. The goal is to replace 95% of the current diesel consumption on Pitcairn Island (75,000 liters per year) with a combination of energy saving and solar electricity through the installation of a hybrid photovoltaic solar energy

Pitcairn Islands , World Factbook

Background . Pitcairn Island was discovered in 1767 by the British and settled in 1790 by the Bounty mutineers and their Tahitian companions. Pitcairn was the first Pacific island to become a British colony (in 1838) and today remains the last vestige of that empire in the South Pacific.

The Pitcairn Islands: Perfect Odyssey Across The World's Most ...

Adamstown , Image credit: Balou46, CC BY-SA 4.0, via Wikimedia Commons Adamstown: The capital city and the island's only settlement, Adamstown is where you can meet the locals and learn more about Pitcairn Island's history. You can stroll around the town and explore the market area, the post office and the treasury.

Pitcairn Islands Museum: Another ...

Life on Pitcairn Island, the World's Least-Populated Territory

Pitcairn Island is an island in the Pacific Ocean more than 3,000 miles away from any continent. It has a population of just 50 people. The island's main industry is tourism and most residents
