Xeno energy Afghanistan

XenoEnergy Co., Ltd.

Based on product understanding and production know-how of Li-SOCl₂ batteries for over 20 years, XenoEnergy provides customers with highest performance and best quality batteries. Recently, the application is more diversified and requirement ...

XENO Authorized distributor

XENO ENERGY is the specialized company who over 15 years develops and manufactures 3.6V Lithium Thionyl Chloride (Li-SOCl₂) Batteries independently. Based on product understanding and production know-how of Li-SOCl₂ batteries, XENO ENERGY provides high performance batteries

XENO ENERGY

With the development of Information-Communication Technology, the application and demand of Li-SOCl₂ batteries are more and more growing in following sectors with their good benefits of high voltage, good voltage stability, long service life, long shelf life, wide temperature coverage and good safety.

XenoEnergy

XenoEnergy, the manufacturer of lithium battery, is organized with the professional human resources who have more than 10 years of experience in lithium battery fields such as R& D, development and production parts.

ESS

Home , Xeno Energy UK

Xeno Energy is a specialised developer and manufacturer of 3.6V Lithium Thionyl Chloride (Li-SOCI2) Batteries, with over 20 years of production experience and a continuous drive for excellence. We provide custom solutions to meet client requirements and guarantee that you will not find another LTC battery that can match us for quality, price

Xeno Energy Company Profile

Xeno Energy (?????) is a company that specializes in producing and supplying primary lithium batteries. It provides various battery types, including general, pulse, high-temperature, and custom solutions.

XenoEnergy Co., Ltd , Company Profile

XenoEnergy is the specialized company who develops and manufactures 3.6V Lithium Thionyl Chloride (Li-SOCI2) Batteries independently. Lithium Thionyl Chloride batteries are less known to general people but it is important industrial and non-rechargeable power source as main power or subsidiary power.
