ION Energy and Li-ion pack maker Wamtechnik enter strategic partnership

Advanced battery management and intelligence systems provider ION Energy has entered into a strategic partnership with European battery pack manufacturer Wamtechnik to facilitate the deployment of a prototype electric excavator for a leading European construction equipment maker.

Standard battery packs

Our standard battery packs are a universal solution for a wide range of electrical devices, including: portable devices, measuring devices, tracking and IoT devices, electric drives, emergency power supply systems, etc.

Wamtechnik Company Profile

Wamtechnik is a manufacturer and supplier of power systems. It offers lithium-polymer and lithium-ion batteries, standard battery packs, nickel-cadmium batteries, alkaline cells, battery analyzers, testers, etc. The company also provides electronic systems, integrated software, and mechanical components of power supply systems.

ION Energy, Wamtechnik Battery Partnership

With Wamtechnik envisaging the design and deployment of a range of compact electric construction equipment that would operate in subzero temperatures (below -20°C), ION Energy emerged as the project's key enabler. The partnership enables Wamtechnik to license ION's BMS technology platform.

Wamtechnik

Wamtechnik offers services relating to the distribution as well as the engineering design and production of custom-made rechargeable and non-rechargeable battery packs for industrial applications. After analysis of technical requirements and professional advice on the technology selection, the R& D department suggests an appropriate power source

Lithium-ion batteries (Li-Ion)

Li-Ion rechargeable batteries are widely used for modern electronic equipment. Wamtechnik range of products includes Li-Ion cells by Panasonic, Saft, LG-Chem, Sony and other world leading manufacturers. *Lithium-ion rechargeable batteries are only available with electronic safeguards appropriate for the given application installed by Wamtechnik.
