Zhyphen Energy Storage Solution, "Store and Save"

UK battery storage manufacturer Zhyphen will be launching its all-in-one solution at the Installer show 2020. This solution is specifically designed for the complex energy demands and spikes associated with Heat Pumps and Electric heating including Infrared.

Zhyphen

Zhyphen specializes in energy storage solutions within the renewable energy sector. The company offers systems that enable the storage of electricity from renewable sources such as solar, wind, or water, which can be used to reduce energy bills and carbon emissions.

Zhyphen Company Profile 2024: Valuation, Funding & Investors

Developer of integrated modular energy systems intended to generate off-grid renewable energy. The company technology has unique attributes that offer to harvest and store free low-carbon renewable energy and can be applied to almost limitless applications, providing consumers with secure, sustainable, and affordable energy options.

Zhyphen Energy - Outreach Projects

At Zhyphen energy we strongly believe that energy storage is a fundamental part of the world's future and should never be a luxury! We know that the future of energy lies in renewable sources such as the sun, for both economic and environmental reasons.

Zhyphen
